RE: Daily COVID-19 Update

Good morning! Once again, the state of Nebraska did not enter any new data into the database so I have no state or county information to share.

As of 9:00 this morning there were 96,284,292 cases in the world. Yesterday there were 95,668,817. There have been 2,060,232 deaths. Yesterday there had been 2,043,806 deaths.

In the United States there are now 24,255,934 positive cases and 401,820 deaths. Yesterday there were 24,081,790 cases and 399,008 deaths. There were 174,144 new cases diagnosed in the U.S. yesterday and 2,812 deaths. It is hard to believe that there have been over 400,000 deaths from COVID-19 in the United States in one year's time!

This is the Nebraska information that I posted yesterday but I will leave it for today since I have no new information. In Nebraska there are now 182,176 cases and there have been 1,842 deaths. Yesterday there had been 181,978 positive cases and 1,837 deaths. 198 new confirmed cases have been identified since yesterday and 68 of the new cases were in Douglas County. We now have had 655 confirmed cases in Nemaha County, 179 in Pawnee County, 627 in Richardson County, 594 in Johnson County and 1,111 in Otoe County. These are the numbers of cases in each county as reported by the Southeast District Health Department. 58,447 of the Nebraska cases are in Douglas County. There have now been 6,364 confirmed cases in Hall County, 2,619 cases in Dawson County and 3,608 cases in Dakota County. There are now 1,956 cases in Gage County and 25,107 cases in Lancaster County.

Thanks for all you do for us! Be kind to each other!
