RE: Daily COVID-19 Update

Good morning! The Southeast District Health Department updated the information on their website on Friday, January 29th. There are 20 new cases of COVID-19 in their area. Two of the new cases are in Johnson County, seven are in Nemaha County, eight are in Otoe County, one is in Pawnee County and two are in Richardson County. This makes a total of 3,339 cases and 48 deaths in the district. 468 of the cases were diagnosed in the last 30 days.

The number of new cases of COVID-19 in the state is really going down, as are the hospitalizations. I hope everyone continues to do what they are doing so that this trend continues. No new data was entered for our state on Saturday so the numbers might look a little strange.

As of 9:00 this morning there were 103,043,330 cases in the world. Yesterday there were 102,667,800. There have been 2,229,697 deaths. Yesterday there had been 2,221,806 deaths.

In the United States there are now 26,188,167 positive cases and 441,331 deaths. Yesterday there were 26,076,030 cases and 439,536 deaths. There were 112,137 new cases diagnosed in the U.S. yesterday and 1,795 deaths.

In Nebraska there are now 190,713 cases and there have been 1,920 deaths. Yesterday there had been 190,570 positive cases and 1,920 deaths. 143 new confirmed cases have been identified since yesterday and 30 of the new cases were in Douglas County. We now have had 699 confirmed cases in Nemaha County, 190 in Pawnee County, 650 in Richardson County, 612 in Johnson County and 1,188 in Otoe County. These are the numbers of cases in each county as reported by the Southeast District Health Department. 61,184 of the Nebraska cases are in Douglas County. There have now been 6,638 confirmed cases in Hall County, 2,689 cases in Dawson County and 3,654 cases in Dakota County. There are now 2,001 cases in Gage County and 26,690 cases in Lancaster County.

Thanks for all you do for us! Be kind to each other!
