Good morning! The Southeast District Health Department has updated the information on their website. There is a total of 16 new cases and one death in the district in the last week. There have been some people interested in knowing the number vaccinations that have been given by our hospital. So far, we have administered 3,523 doses of vaccine. We gave 147 doses last week. We are having a difficult time finding people willing to receive all of the vaccine that we have been allocated. We even started offering the vaccine to walk-ins last week. We also were able to get some Pfizer vaccine to give to those 16 and older last week. Please share the importance of becoming vaccinated with your friends and family.
